- 5(2) The required dog or cat license will be sold by the Chief Administrative Officer or any other designated employee of the Municipality. - 5(8) Subject to subsection 5(9) hereof, every dog or cat owner must produce, before a license is issued or renewed for the dog or cat, evidence of a current rabies vaccination status for that dog or cat from a licensed veterinarian.
- 5(9) A dog or cat owner does not have to produce evidence of a current rabies vaccination status in order to obtain or renew a license in respect of his dog or cat if he can produce a statement in writing signed by a licensed veterinarian certifying that the dog or cat cannot be vaccinated for rabies for medical reasons.

Rabies Vaccination

5(10) Except where subsection 5(9) applies, the animal control officer may at any time request that an owner provide proof that the owner's dog or cat has a current rabies vaccination status and, if the owner cannot produce such proof, the animal control officer may, in the case of a dog or cat, terminate the owner's dog or cat license, and in the case of a dog or cat, the animal control officer may apprehend and impound the dog or cat, and may charge the owner with an offense under this By-Law.

Kennel Permits

6(1) Any person who wishes to keep, harbour, possess or control that number of dogs or cats in excess of the maximum number prescribed in section 10 hereof, regardless of whether for profit or pleasure, shall apply in writing to the Council for a kennel permit. The application must be accompanied by the application and permit fees as set out in Schedule A hereto attached. Any person who keeps, harbours, possesses or controls a number of dogs or cats in excess of the maximum number prescribed in section 10 hereof without a valid kennel permit shall have committed an offense under this By-Law.

6(2) Council shall set a date to review any such application for a kennel permit at a regularly scheduled Council meeting not less than thirty (30) days following receipt of the completed application form, the application fee and permit fee for the first year. Council shall notify the applicant and shall make reasonable attempts to notify all property owners within a one mile radius of the premises upon which the proposed kennel will be located [**one block within a densely populated area**], of the application and the date of the hearing in respect of the application.

6(3) In determining whether or not to grant a kennel permit to an applicant, Council shall consider all relevant factors, including the following factors:

- (a) the proposed maximum number of dogs and/or cats to be kept on the premises;
- (b) the intended purpose for keeping the dogs and/or cats on the premises;
- (c) the steps which have been taken to ensure that the dogs and/or cats will be adequately and safely housed;

- (f) any inspection report from the public health authorities or any other authorities as may be requested by the Council;
- (g) any representations made by the owner or on behalf of the owner either in writing or at the meeting of Council where the application for a kennel permit will be heard; and
- (h) any representations made by neighbours of the owner or any other interested party, whether in writing or by oral submission at the meeting of Council at which the application for a kennel permit is heard.

6(4) A kennel permit issued to an applicant shall be valid for a period of one year from the date of issuance. A permit-holder who wishes to renew a kennel permit shall no later than thirty (30) days prior to the expiry date submit an application for renewal to the Council on a form approved by Council and accompanied by the

annual license fee as set out in Schedule A. Council shall review such renewal application, and may, but shall not be required to, notify adjacent property owners of the renewal application unless such renewal application materially differs from the prior year's application submitted by the permit-holder or unless a written objection is made to Council, in which case all adjacent property owners shall be notified.

- 6(5) Prior to revoking, suspending, refusing to renew, or imposing conditions upon, an issued and outstanding kennel permit, the Council shall notify the holder of the kennel permit and shall provide the said holder with the opportunity to make representations to Council at a meeting of Council.
- 6(6) Council may refuse to issue a kennel permit or may revoke or refuse to renew an existing kennel permit or may modify the conditions which apply to an existing kennel permit or may suspend an existing kennel permit at any time upon a finding that:
- (a) a neighbour or any other party is exposed to a nuisance created by the operation or maintenance of the kennel, including, without limitation, excessive noise, noxious odour or excessive traffic;
 - (b) this By-Law or any other law, regulation or rule pertaining to animal care or environment matters, or any condition pertaining to the kennel permit, have been or are being contravened, including, without limitation;
 - (c) the premises are not maintained in a condition such that animal escapes are prevented;
 - (d) the holder of the kennel permit has breached the duties of an owner of animals under *The Animal Care Act* (Manitoba) (whether or not he actually owns all of the animals in his care), including, without limitation, where the conditions in the kennel are unsafe or unsanitary for the animals;
 - (e) any inspection report from the public health authorities indicating that a lack of cleanliness or sanitation in the kennel or the surrounding premises presents a human health risk;
 - (f) the premises are not licensed under *The Animal Care Act* (Manitoba), and are required to be so licensed under the said Act; or
 - (g) it is not in the public interest to allow the kennel or proposed kennel to operate, or to continue to operate, as currently operated within the Municipality.
- 6(7) Upon refusal to grant or renew a kennel permit, or upon prescribing the conditions of a kennel permit or modifying the conditions of a kennel permit or suspending an owner's kennel permit, the owner shall be notified of the decision of Council by registered mail. In the event that the owner's application for a new or renewed kennel permit is denied, or the conditions of the owner's existing kennel permit are modified such that the owner keeps, harbours or has possession or control over a number of dogs and/or cats that exceeds the prescribed limit in this By-Law or in the kennel permit, as applicable, the owner shall have thirty (30) days to dispose of the dogs and/or cats over and above the applicable prescribed limit or to make such other modifications as may be required by order of the Council.
- 6(8) The animal control officer shall inspect the premises as soon as reasonably possible after (30) days set out in subsection 6(7) hereof has elapsed to ensure compliance with the order of the Council and the conditions imposed on the existing kennel permit, if any. If the owner has failed to comply with any such order or conditions, the animal control officer shall take all such lawful steps as may be required, in his discretion, to bring the owner into compliance with this

By-Law and any such order or conditions, including, without limitation, apprehending and impounding any dogs and/or cats in excess of the applicable prescribed limit to be dealt with in accordance with the duties of the poundkeeper in section 4, except that the owner shall not be entitled to redeem the dogs and/or cats apprehended if, to allow such a redemption, would again result in a contravention of the provisions of this section 6.

- 6(9) The Owner may appeal the apprehension and/or impoundment of any dogs and/or cats under subsection 6(7) to the Council by notice of appeal in writing delivered to the Clerk of the Municipality within three (3) days of the apprehension (excluding Sundays and statutory holidays during which the pound is closed to the public). This appeal shall be heard by Council at the next regularly scheduled Council Meeting. The decision of Council is final. If the decision of Council is to deny return of the impounded dogs and/or cats to the owner, the poundkeeper shall arrange forthwith to sell or otherwise dispose of the said dogs and/or cats or to humanely destroy the said dogs and/or cats. If the decision of Council is to reverse the apprehension and impoundment, the owner shall, subject to payment by the owner of all costs associated with the apprehension and impoundment of the said dogs and/or cats and any licensing and permit fees properly charged to the owner under this By-Law, recover the said animals.
- 6(10) The Council, or the animal control officer on their behalf, may request in writing that the premises of the applicant or permit-holder be inspected by the animal control officer or such other person as may be designated by Council or the animal control officer, at any time upon reasonable notice, and the owner shall comply with any such request. The failure by an owner to comply with such a request shall constitute an offense under this By-Law and is grounds for refusing to grant or renew a kennel permit or for revoking, suspending or placing conditions upon an existing kennel permit.
- 6(11) Nothing in this By-Law shall be construed as obviating or overriding any requirement under the laws of the Province of Manitoba to obtain a license or licenses from the Government of Manitoba, and to comply with provincial licensing requirements, in order to carry on business as a boarding kennel or a commercial breeder of dogs, cats or any other animals.

PART V: DANGEROUS ANIMALS

Animal Bites

11(1) The animal control officer:

- (a) shall apprehend, impound and place in quarantine any dog or cat that he has reason to believe has bitten a person; and
- (b) may apprehend, impound and place in quarantine any other domestic pet that he has reason to believe has bitten a person if, in his discretion, such action in respect of the domestic pet is necessary for the protection of the public;

(in either case, the “aggressor animal”), whether on private premises or elsewhere, and whether or not the skin was directly punctured or lacerated by the bite, except that this provision shall not apply to a police service dog owned by a public law enforcement agency while on duty and under the control of a qualified dog handler.

11(2) If the aggressor animal is not voluntarily surrendered to the animal control officer by the owner, the animal control officer shall be empowered to apprehend and impound the aggressor animal and, if necessary, to apply to a provincial court judge, magistrate or justice of the peace, as required, in order to obtain an order to enter the personal residence of the owner for the purpose of apprehending and impounding the aggressor animal.

11(3) Any aggressor animal so apprehended and impounded at the pound shall, subject to subsection 11(9) herein, be quarantined for a minimum of ten (10) days at the owner’s expense, commencing from the date of impoundment (the “quarantine period”).

11(4) The animal control officer may, in his discretion, authorize the owner of the aggressor animal to quarantine the aggressor animal in a place other than the pound, provided that such place is under the direct supervision of a licensed veterinarian and that the aggressor animal must remain at such place at the owner’s expense for the quarantine period.

11(5) Subject to a determination by the animal control officer pursuant to subsection 11(8) hereof that the aggressor animal is not a dangerous animal, the aggressor animal may be released to the owner after expiry of the prescribed quarantine period upon payment by the owner to the poundkeeper of a pound fee calculated at the daily rate set out in Schedule A hereto attached together with any costs or fines assessed against the owner hereunder. In the event that the owner fails to redeem the aggressor animal from the pound within three (3) days after expiry of the quarantine period, the aggressor animal shall be sold, or otherwise disposed of, or destroyed at the discretion of the poundkeeper.

11(6) The animal control officer shall keep a record of all bite incidents, identifying the aggressor animal and the details of the incident, and such record may be used in any hearing or appeal with respect to the dangerous animal provisions contained herein.

11(7) The head of any aggressor animal quarantined for biting that dies while quarantined and prior to the veterinary examination required pursuant to subsection 11(8) hereof, shall be submitted to the Canadian Food Inspection Agency for rabies examination.

11(8) Every aggressor animal shall be examined by a licensed veterinarian approved by the animal control officer prior to release from quarantine. The determination as

to whether or not the aggressor animal can be released from quarantine or must be destroyed or otherwise disposed of, shall be at the discretion of the animal control officer based upon the following factors:

- (a) the medical report of the licensed veterinarian who has examined the aggressor animal;
- (b) whether or not the public health authorities are prepared to consent to the release of the aggressor animal;
- (c) the severity of the bite incident, the circumstances surrounding the incident and the consequences of the incident;

- (e) whether or not the aggressor animal is a restricted animal, and if yes, whether or not the provisions of Part VII hereof have been complied with by the owner; and
- (f) proof that the aggressor animal does not have rabies, and that the aggressor animal has a current rabies vaccination status at the date of the bite incident.

11(9) Notwithstanding the provisions of subsection 11(3) herein, it shall be within the discretion of the animal control officer to release an aggressor animal prior to the expiry of the quarantine period and to impose conditions upon the release of an aggressor animal from quarantine, which conditions may include, without limiting the generality of the foregoing:

- (b) the owner shall post in a conspicuous location at the entrance of the premises where the aggressor animal is confined, a sign which reads "*Beware of Dangerous <type of aggressor animal>*";
- (c) the owner shall submit the aggressor animal for veterinary examination from time to time as may be prescribed by the animal control officer, and shall report the results of any such veterinary examination to the animal control officer;
- (d) the owner shall take out and pay for such liability insurance on the aggressor animal as may be prescribed by the animal control officer;
- (e) the owner shall be responsible for all costs, fines and damages associated with the aggressor animal, including the costs of impoundment, quarantine, signage and veterinary fees, pound fees and license fees, and any costs associated with liability to the victim or victims of the bite incident;
- (f) such other conditions as the animal control officer may deem necessary or advisable in the interests of public safety.

12(1) Where the animal control officer has reason to believe that an animal, including but not limited to an aggressor animal under section 11, is a dangerous animal, he shall arrange a hearing before Council at a regularly scheduled meeting of Council to determine whether or not the said animal should be declared a

dangerous animal. In the event that an owner voluntarily accepts the dangerous animal declaration and the recommended disposition of the matter made by the animal control officer, a hearing before Council may be dispensed with, and the recommended disposition of the matter shall constitute a final order in respect of which there is no appeal.

- 12(2) Where it is deemed necessary by the animal control officer to protect the public or other animals pending the decision of Council, the animal control officer may: (i) require that the animal be quarantined in the pound until the earlier of the date that the animal control officer determines that it is safe to release the animal to the custody of the owner or until Council hears the matter and issues its determination; or (ii) may impose all or any of the conditions set out in subsection 13(2) of this By-Law upon the owner's custody of the animal, which conditions shall apply until the earlier of the date that the animal control officer determines that it is safe to remove the conditions or until Council hears the matter and issues its determination.
- 12(3) Council shall provide written notice of the hearing to the owner of the animal at least ten (10) days in advance of the hearing by serving notice upon the owner or by mailing the notice by registered mail to the last known address of the owner. In the case where the animal alleged to be a dangerous animal is a dog, the animal control officer shall be entitled to mail the said notice to the last address provided by the owner to the Municipality in relation to the licensing of the said dog. The notice shall include the following minimum information:
- (a) the time, place and purpose of the hearing;
 - (b) a summary of the reasons in support of the allegation that the animal is dangerous;
 - (c) a copy of this section 12 of the By-Law; and

The owner also has the right to hear all of the evidence and submissions presented at the hearing by or on behalf of the animal control officer and to inspect any documents filed by or on behalf of the animal control officer, and to respond to same.
- (b) Where the owner does not attend at the hearing, having been given notice as provided in accordance with this section 12, Council shall be entitled to deal with the matter in his absence, and the owner shall not be entitled to any further notice or appeal in regard to the proceedings concerning the animal. The owner shall be notified of the decision of Council by notice in writing delivered by personal service or registered mail in the manner set out in subsection 12(3) hereof.
- 12(5) Within five (5) working days of the hearing of Council, Council shall issue a written decision in accordance with the following provisions:

 - (i) whether the animal has worried, bitten, wounded or injured any person or animal, or is otherwise an aggressor animal;
 - (ii) the circumstances surrounding any previous worrying, biting or wounding incidents; and
 - (iii) whether the animal, when unprovoked, has shown a tendency to pursue, chase or approach in a menacing fashion, any person or any other animal upon any public or private property.
- 12(6) The Council shall deliver a copy of their decision to the owner in the manner provided in subsection 12(3). There shall be no obligation upon Council to issue written reasons for their decision.
- 12(7) The decision of Council shall be final. There shall be no appeal from the decision of Council.
- 12(8) In the event that a dog is declared by Council to be a dangerous animal, any license previously issued in relation to that dog shall be deemed to have been cancelled effective as of the date of Council's decision to declare the dog to be a dangerous animal.
- 12(9) Where a license is deemed to have been cancelled pursuant to subsection 12(8) hereof, the owner shall be entitled to a credit or refund on any paid-up license fee, calculated on a quarterly pro rata basis. The Municipality may set-off against any such refund, any fines, fees or costs owing by the owner under this By-Law.
- 12(10) Every owner who has received notification from Council pursuant to subsection 12(3) that a determination hearing will be held with respect to his animal, shall ensure that the animal remains confined upon the premises of the owner pending the final outcome of the hearing.
- 12(11) Subsection 12(10) shall not apply if the animal is impounded or the animal control officer receives written confirmation from a licensed veterinarian that the animal has been placed in quarantine pending outcome of the hearing.

Consequences of dangerous animal declaration

- 13(1) Council shall determine whether the dangerous animal should be destroyed or released to the owner subject to the conditions set out in subsection 13(2). The decision of Council shall be final and not subject to appeal.

In the event that an animal is causing an immediate risk to any person, property or any other animal, the animal control officer is authorized to apprehend and impound the said animal notwithstanding that it has not been declared to be a dangerous animal by Council at the time of its apprehension and impoundment.

- 14(2) When the animal control officer impounds an animal under this section 14 for the purpose of destruction of the animal, he shall give the owner written notice, delivered to the last known address of the owner, that the animal will be destroyed after the expiry of ten (10) days from the date of the notice. The owner may, during that time period, appeal the decision of the animal control officer to Council by providing notice in writing to the Clerk of the Municipality, in which case Council shall hold a hearing at a regularly scheduled meeting of Council as to whether or not the animal should be destroyed, which hearing shall be carried out in accordance with the provisions of section 13 hereof. Prohibition on restricted animals

- 16(1) Except as may be permitted by the Municipality's zoning by-law in effect from time to time, no person shall keep, harbour, possess or control any restricted animals within the Municipality without a permit issued by Council.

Council (or the Chief Administrative Officer, in the case of an application for a permit on a temporary basis) shall decide based on the application and any written or oral submissions of the applicant, whether or not to grant a permit to the applicant to keep or harbour the restricted animal within the Municipality and shall advise the applicant in writing of their decision. Council or the Chief Administrative Officer, as the case may be, may impose conditions upon a permit to keep or harbour a restricted animal and any violation of such conditions by the owner shall invalidate the permit provided by Council and shall constitute an offence under this By-Law.

Any such sale, gift or disposition shall be in accordance with all laws, rules and regulations which may pertain to the sale or disposition of restricted animals, and the Municipality accepts no responsibility for the manner of sale or disposition.

- 16(6) (b) Council may grant such longer period of time to an owner of a restricted animal who falls within subsection 16(6)(a) hereof as may be necessary to allow Council adequate time to consider and decide the owner's application to retain the restricted animal within the Municipality.

Provided however, that if the owner has not already applied and been denied a permit to keep or harbour the restricted animal, the owner may make such an application in accordance with subsection 16(2), and the order of the animal control officer shall be suspended pending the decision of Council.
- 16(8) The onus shall be on the person upon which an order pursuant to subsection 16(7) has been served to establish either that: (a) the animal is not a restricted animal; or (b) the person has a permit from Council to keep or harbour the restricted animal.
- 16(9) Where the person has failed to establish either that the animal is not a restricted animal or that he has a permit from Council to keep or harbour the restricted animal, and the person has failed or refused to dispose of the restricted animal within the time frame contemplated by the order of the animal control officer, the animal control officer may seek an order or warrant from a provincial court judge, magistrate or justice of the peace, as required, to enter upon the land and premises of that person for the purpose of removing and disposing of the restricted animal. The animal control officer may engage the assistance of other persons if required to safely apprehend the restricted animal.
- 16(10) Upon apprehension and impoundment of a restricted animal, and provided that: (a) a written order was duly served on the owner as required by subsection 16(7); and (b) if an application for the written permission of Council to retain the restricted animal has been heard and denied by Council; Council may proceed to order the animal destroyed or sold, and the animal control officer shall carry out the order of Council. The owner shall be liable for all costs associated with apprehension, impoundment and destruction or sale of the restricted animal. If the proceeds of sale exceed any such costs and any fines imposed upon the owner for breach of this By-Law, then the Municipality shall refund the excess proceeds to the owner.

THE STAFFORDSHIRE BULL TERRIER is acknowledged to be a British breed dating back at least 175 years. However, because breeding records of that time were virtually non-existent, the exact breeds that were combined to create the Staff are unknown. Courage, not show points or pedigrees, was all that mattered to the dogs' breeders, for the Staff was bred to be a fighter even as late as 1930, well after the time when dog fighting had been outlawed in Britain. Fortunately, times have changed. Although the Staff will rise to the occasion if provoked, no breed is more tractable or more trustworthy with children.

While facts as to his heritage are few, dog historians believe that the breed descends from the mastiff of ancient times, of which there were two types – a large and a small. From the latter, it is thought, came the Old English Bulldog which when crossed with one or more terrier breeds, produced the Bull and Terrier, the dog which is today called the Staffordshire Bull Terrier. This is not entirely conjecture on the part of the historians. If old-time breeders were careless record keepers they left behind them enough portraits and drawings of their more noteworthy dogs to give credence to this reasoning.

Early in the 1930s and perhaps, as one writer suggests, because the law was making things difficult for the dog fighting fraternity, a group of fanciers led by Joseph Dunn determined to raise the status of the Bull and Terrier and have it officially recognized by The Kennel Club. In 1935 they succeeded. All that remained to be done was to select a suitable name. That of Bull Terrier had already been given to a closely related breed, so it was decided to name the breed for the English country where it was most popular (as well as being the home area of its patrons). The breed has become very popular in Britain and frequently accounts for the largest terrier entry at prestigious championship dog shows.

The Staffordshire Bull Terrier was officially recognized by The Canadian Kennel Club in 1953, followed some years later by the United States.

**Official Breed Standard for the
Staffordshire Bull Terrier**

General Appearance: The Staffordshire Bull Terrier is a smooth-coated dog. He should be of great strength for his size, and although muscular, should be active and agile.

Temperament: From the past history of the Staffordshire Bull Terrier, the modern dog draws his character of indomitable courage, high intelligence, and tenacity. This, coupled with his affection for his friends, and children in particular; his off-duty quietness and trustworthy stability, makes him the foremost all-purpose dog.

Size: Weight—dogs, 28-38 lb. (13-17kg); bitches, 24-33 lb. (11-15kg). Height—(at shoulder), 14-16 in. (36-41cm), these heights being related to the weights.

Coat and Colour: Coat smooth, short and close to the skin. Colour red, fawn, white, black or blue, or any of these colours with white. Any shade of brindle, or any shade of brindle with white. Black and tan or liver colour not to be encouraged.

Head: Short, deep through, broad **skull**, very pronounced cheek muscles, distinct stop, short foreface, black **nose**. The **mouth** should be level, i.e., the incisors of the bottom jaw should fit closely inside the incisors of the top jaw, and the lips should be tight and clean. **Eyes:** dark preferable but may bear some relation to coat colour. Round, of medium size, and set to look straight ahead. **Ears** rose or half-pricked and not large.

Neck: Muscular, rather short, clean in outline and gradually widening towards the shoulders.

Forequarters: Legs straight and well boned, set rather wide apart, without looseness at the shoulders, and showing no weakness at the pasterns from which point the feet turn out a little.

Body: The body should be close-coupled, with a level topline, wide front, deep brisket, well-sprung ribs and rather light in the loins.

544 GROUP IV: TERRIERS

Hindquarters: Should be well muscled, hocks let down with stilles well bent. Legs should be parallel when viewed from behind. The feet should be well padded, strong and of medium size.

Tail: Should be of medium length, low set, tapering to a point and carried rather low. It should not curl much and may be likened to an old-fashioned pump handle.

Faults: To be penalized in accordance with the severity of the fault: Light eyes or pink eye rims. Tail too long or badly carried. Non-conformation to the limits of weight or height. Full drop and prick ears. Undershot or overshot mouths. The following faults should debar a dog from winning any prize: Pink (Dudley) nose. Badly undershot or overshot mouth. Badly undershot – where the lower jaw protrudes to such an extent that the incisors of the lower jaw do not touch those of the upper jaw. Badly overshot – where the upper jaw protrudes to such an extent that the incisors of the upper jaw do not touch those of the lower jaw.

GROUP IV: TERRIERS

THE STAFFORDSHIRE BULL TERRIER had its beginnings in England many centuries ago when the Bulldog and Mastiff were closely linked. Bull baiting and bear baiting in the Elizabethan era produced large dogs for these sports and later on the 100-120 pound animal gave way to a small, more agile breed of up to 90 pounds.

Early in the 19th century the sport of dog fighting gained popularity and a smaller, faster dog was developed. It was called by names such as “Bulldog Terrier” and “Bull Terrier”. The Bulldog bred then was a larger dog than we know today and weighed about 60 pounds. This dog was crossed with a small native terrier which appears in the history of the present-day Manchester Terrier. The dog which this produced, averaging between 30 and 45 pounds, became the Staffordshire Bull Terrier.

James Hinks, in about 1860, crossed the Old Pit Bull Terrier, now known as the Staffordshire Bull Terrier, and produced the all-white English Bull Terrier. The Bull Terrier obtained recognition by The Kennel Club in England in the last quarter of the 19th century, but the Staffordshire Bull Terrier, due to its reputation as a fighting dog, did not receive this blessing.

In 1935 the Staffordshire Bull Terrier was recognized by the Kennel Club in England and enthusiasts were able to conduct conformation matches. The sport of dog fighting had long been made illegal and the Staffordshire Bull Terrier had evolved into a dog of such temperament as to make him a fine pet and companion and a worthy show dog.

The Staffordshire Bull Terrier was admitted to registration in the American Kennel Club Stud Book effective October 1, 1974, with regular show classification in the Terrier Group at AKC shows available on and after March 5, 1975.

Official Standard for the Staffordshire Bull Terrier

Characteristics – From the past history of the Staffordshire Bull Terrier, the modern dog draws its character of indomitable courage, high intelligence, and tenacity. This, coupled with its affection for its friends, and children in particular, its off-duty quietness and trustworthy stability, makes it a foremost all-purpose dog.

General Appearance – The Staffordshire Bull Terrier is a smooth-coated dog. It should be of great strength for its size and, although muscular, should be active and agile.

Head and Skull – Short, deep through, broad skull, very pronounced cheek muscles, distinct stop, short foreface, black nose. Pink (Dudley) nose to be considered a serious fault.

Eyes – Dark preferable, but may bear some relation to coat color. Round, of medium size, and set to look straight ahead. Light eyes or pink eye rims to be considered a fault, except that where the coat surrounding the eye is white the eye rim may be pink.

Ears – Rose or half-pricked and not large. Full drop or full prick to be considered a serious fault.

Mouth – a bite in which the outer side of the lower incisors touches the inner side of the upper incisors. The lips should be tight and clean. The badly undershot or overshot bite is a serious fault.

Neck – Muscular, rather short, clean in outline and gradually widening toward the shoulders.

Forequarters – Legs straight and well boned, set rather far apart, without looseness at the shoulders and showing no weakness at the pasterns, from which point the feet turn out a little.

American Staffordshire Terrier

A BREED DEVELOPED IN America, the Staffordshire Terrier is closely related to the Staffordshire Bull Terrier. Both breeds were derived from crossing the bulldog with various terrier breeds. But, unlike the Staffordshire Bull, this breed is taller, heavier, straighter in forelimb and somewhat smoother in over-all outline. His ears may be either cropped or uncropped.

The breed was first known early in the 19th century when dog fighting was a popular spectator sport in parts of the United States. The Staffordshire was intentionally designed as a fighting dog combining the tenacity and courage of the Bulldog with the agility and spirit of the terrier. And he was good at his job, so good, in fact, that at first the American Kennel Club refused to acknowledge the Staffordshire Terrier as a pure breed. But he was admitted to registration by another American-based organization, the United Kennel Club.

Then the breed's fortunes took a turn for the better. Dog fighting was outlawed in most States in 1900, and breeders of the Staffordshire turned their attentions to producing a more docile animal that would function well as family pet and guardian. Their efforts were successful and the Staffordshire Terrier was admitted to the American Kennel Club's official roster of pure-breeds in 1935.

Later, in January 1972, in order to avoid confusion with the Staffordshire Bull Terrier, which was then in process of gaining official acceptance, the American Kennel Club changed the breed name to the American Staffordshire Terrier.

This was to be the last of a series of names for the breed that over the years had included the Yankee Terrier, Pit Bull Terrier, Half and Half, and the American Bull Terrier.

The breed has a loyal following in the United States with good entries at most of the larger championship shows. For some reason it has failed to achieve the same acceptance in Canada. Only rarely is an American Staffordshire Terrier seen at a dog show in Canada.

**Official Breed Standard for the
American Staffordshire Terrier**

General Appearance: The Staffordshire Terrier should give the impression of great strength for his size, a well put-together dog, muscular, but agile and graceful, keenly alive to his surroundings. He should be stocky, not long-legged or racy in outline. His courage is proverbial.

Size: Height and weight should be in proportion. A height of about 18-19 in. (46-48 cm) at shoulder for the male and 17-18 in. (43-26 cm) for the female is to be considered preferable.

Coat and Colour: Coat short, close, stiff to the touch, and glossy. Any colour, solid, parti, or patched is permissible, but all white, more than 80 percent white, black and tan, and liver not to be encouraged.

Head: Medium length, deep through broad **skull**, very pronounced cheek muscles, distinct stop; **muzzle** medium length, rounded on upper side to fall away abruptly below eyes. Jaws well defined. Underjaw to be strong and have biting power. Lips close and even, no looseness. **Nose** definitely black. Upper teeth to meet tightly outside lower teeth in front. **Eyes** dark and round, low down in skull and set far apart. No pink eyelids. **Ears** set high; cropped or uncropped, the latter preferred. Uncropped ears should be short and held half rose or prick.

Neck: Heavy, slightly arched, tapering from shoulders to back of skull. No looseness of skin. Medium length.

Forequarters: Shoulders strong and muscular with blades wide and sloping. Forelegs set rather wide apart to permit chest development. The front legs should be straight, large or round bones, pastern upright. No resemblance of bend in front.

Body: Back fairly short. Slight sloping from withers to rump with gentle short slope at rump to base of tail. Well-sprung ribs, deep in rear. All ribs close together. Chest deep and broad. Loins slightly tucked.

Hindquarters: Well muscled, let down at hocks, turning neither in nor out. Feet of moderate size, well arched and compact.

Tail: Short in comparison to size, low set, tapering to a fine point: not curled or held over back. Not docked.

Gait: Must be springy but without roll or pace.

Faults: Faults to be penalized are Dudley nose, light or pink eyes, undershot or overshot mouth, full drop ears, tail too long or badly carried.

450 Group IV: Terriers

American Staffordshire Terrier

TO GIVE CORRECTLY the origin and history of the American Staffordshire Terrier, it is necessary to comment briefly on two other dogs, namely the Bulldog and the terrier.

Until the early part of the 19th century, the Bulldog was bred with great care in England for the purpose of baiting bulls. The Bulldog of that day was vastly different from our present-day “sourmug”. Pictures from as late as 1870 represent the Bulldog as agile and as standing straight on his legs-his front legs in particular. In some cases he was even possessed of a muzzle, and long rat tails were not uncommon. The Bulldog of that day, with the exception of the head, looked more like the present-day American Staffordshire Terrier than like the present-day Bulldog.

Some writers contend it was the white English Terrier, or the Black-and-Tan Terrier, that was used as a cross with the Bulldog to perfect the Staffordshire Terrier. It seems easier to believe that any game terrier, such as the Fox Terrier of the early 1800’s, was used in this cross, since some of the foremost authorities on dogs of that time state that the Black-and-Tan and the white English Terrier were none too game, but these same authorities go on to stress the gameness of the Fox Terrier. It is reasonable to believe that breeders who were attempting to perfect a dog that would combine the spirit and agility of the terrier with the courage and tenacity of the Bulldog, would not use a terrier that was not game. In analysing the three above-mentioned terriers at the time, we find that there was not a great deal of difference in body conformation, the greatest differences being in color, aggressiveness, and spirit.

In any event, it was the cross between the Bulldog and the terrier that resulted in the Staffordshire Terrier, which was originally called the Bull-and-Terrier Dog, Half and Half, and at times Pit Dog or Pit Bull terrier. Later, it assumed the name in England of Staffordshire Bull Terrier.

These dogs began to find their way into America as early as 1870, where they became known at Pit dog, Pit Bull Terrier, later American Bull Terrier, and still later as yankee Terrier.

In 1936, they were accepted for registration in the American kennel Club stud book as Staffordshire Terriers. The name of the breed was revised effective January 1, 1972 to American Staffordshire Terrier. Breeders in this country had developed a type which is heavier in weight than the Staffordshire Bull Terrier of England and the name change was to distinguish them a separate breeds.

The American Staffordshire Terrier’s standard allows a variance in weight, but it should be in proportion to size. The dog’s chief requisites should be strength unusual for his size, soundness, balance, a strong powerful head, a well-muscled body, and courage that is proverbial.

To clarify the confusion that may exist, even in the minds of dog fanciers, as to the difference between the American Staffordshire Terrier and the Bull Terrier, a comment on the latter may be helpful. The Bull Terrier was introduced by James Hinks of Birmingham, who had been experimenting for several years with the old bull-and-terrier dog, now known at Staffordshire. It is generally conceded that he used the Staffordshire, crossed with the white English Terrier, and some writers contend that a dash of Pointer and Dalmation blood was also used to help perfect the all-white-Bull Terrier.

In mentioning the gameness of the Staffordshire, it is not the intention to tag him as a fighting machine, or to praise this characteristic. These points are discussed because they are necessary in giving the correct origin and history of the breed. The good qualities of the dogs are many, and it would be difficult for anyone to overstress them. In appearance, they are flashy-looking and they attract much attention on the show bench. As to character, they exceed being dead game; nevertheless, they should not be held in ill repute merely because man has been taking advantage of this rare courage to use them in the pit as gambling tools. These dogs are docile, and with a little training are even tractable around other dogs. They are intelligent, excellent guardians, and they protect their masters’ property with an air of authority that counts; they easily discriminate between strangers who mean well and those who do not. They have another characteristic that is unusual: when they are sold, or change hands, they accept their new master in a comparatively short time.
